Comments

“ Dr. Lapp was the doctor for my parents and myself from my birth until I left the Lehigh Valley and he remained for my parents. For me, he set an amaazingly high bar for what a physician should be. Always taking his time, willing to share a joke or a story, compassionate and caring, even making house calls when needed. Even after he retired and he would run into his former patients, like my father and myself at the Farmer's Market, he would share memory and his wonderful smile. My deepest condolences to all who loved him. He truly was a very special man and I know he will be missed.
