“ Bobby, Bryan and Families,
My thought and prayers are with you during this difficult time. I have lots of fond memories of times we shared over the years. But, I'm especially thankful for the times spent together over the past few years. Even though her health was failing, on her good days she still enjoyed cooking, beating me in a game of Yahtzee, but most of all updating me on her boys and their families! She was so thankful and proud of all of you. She will be missed. God's peace be with you all. Love, Hattie
